

Important Community Update

Dear residents,

On Monday, June 26, construction of the new Speedway Café at the intersection of Kelsey Road and Northwest Highway will begin.

The first phase of construction is the demolition of the current, vacant structure. In order to complete this step, crews will install a temporary protective fence that will provide safety and security around the work site. In order to accommodate residents' commuting schedules, road crews and trucks will only be allowed on major village streets such as Kelsey Road and Northwest Highway between the hours of 9am-3pm. Additionally, construction at the site will occur Mondays through Saturdays from 7am-7pm, excluding holidays.

Residents in and around our community will soon benefit from this full service convenience store and amenities, which are needed at this busy intersection. Additionally, the Speedway Café will add significantly to the Village's sales tax collections, which will help further secure our Village's financial future.

For more information on this project and to learn more about the Speedway Café convenience store, please check the Village of Lake Barrington's website, [Facebook page](#) and [Instagram](#) periodically for updates.
